

Committee of Adjustment Information for Applications for Consent (Severance)

A Natural Attraction

The City of Quinte West Committee of Adjustment is appointed by Council and is responsible for granting Consents. The Committee consists of (1) one Member of Council and (4) four Members of the Public.

The Committee is quasi-judicial (Committee meetings are conducted similar to a court proceeding). Therefore, the Members must hear all information at the public hearing without prejudice and must not discuss applications prior to the meeting with applicants, neighbouring property owners, or each other.

PRE-APPLICATION

Applicants are required to discuss any proposal with the Committee of Adjustment Coordinator prior to submitting an application in order to determine if the proposal conforms to Provincial & Municipal policies and regulations.

Please be aware that pre-consultations are used as a screening measure and are based on policies that are in effect at the time of submission. Policies are subject to change over time and could affect the outcome of an application at a later date. Further review from City staff and appropriate agencies during circulation may also impact an application.

All applications for consent to create a new parcel require a completed and approved "Public Works Clearance Form" prior to submission of a consent application. The Public Works Clearance fee is \$370. The Public Works Department requires a minimum of 2 weeks for processing. Consent applications submitted without an approved "Public Works Clearance Form" will be deemed to be incomplete and will NOT be processed.

APPLICATION

Application for consent is made by submitting the required application form, fully completed, together with the required fees and an acceptable sketch of the property prepared by an Ontario Land Surveyor (OLS). The sketch must be to scale, in metric, and include all of the information required. Please note that any application not accompanied by an acceptable sketch will be deemed to be incomplete and will not be processed. Only one copy of the application and sketch is required. The sketch must be supplied on a letter-sized sheet of paper. Any other size of sketch will not be accepted. All measurements must be calculated in accordance with the definitions in the Zoning By-law. The sketch must include the following:

- the boundaries and dimensions of any land abutting the subject land that is owned by the owner of the subject land;
- the approximate distance between the subject land and the nearest township lot line or landmark such as a bridge or railway crossing;
- the boundaries and dimensions of the subject land, the part that is intended to be severed and the part that is intended to be retained;

- the location of all land previously severed from the parcel originally acquired by the current owner of the subject land;
- the approximate location of all natural and artificial features (*for example, buildings, railways, roads, watercourses, drainage ditches, banks of rivers or streams, wetlands, wooded areas, wells and septic tanks*) that,
 - are located on the subject land and on land that is adjacent to it, and
 - in the applicant's opinion, may affect the application;
- the current uses of land that is adjacent to the subject land (*for example, residential, agricultural or commercial*);
- the location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public travelled road, a private road or a right of way;
- if access to the subject land will be by water only, the location of the parking and boat docking facilities to be used; and
- the location and nature of any easement affecting the subject land.

2023 Fees

Please note that all fees must be submitted with the application made payable to the “City of Quinte West”.

Regular Consent	\$2,345.00
Technical Consent	\$1,443.00

On-site septic review fees in areas on private services (ie. well and/or septic) are payable at the time of submission of the consent application. The fee is \$379 for each severed lot and the retained lot (\$758 total for severed and retained).

SOURCE WATER PROTECTION INFORMATION

Is the subject property located within a Vulnerable Area as identified by the Trent Source Protection Plan? Yes No

If Yes, please complete the following

Note: Part IV of the Clean Water Act requires the applicant obtain a "Section 59 Notice to Proceed" from a Risk Management Official before an application for an approval under the Planning Act or a building permit can proceed.

Please identify the Vulnerable Area in which the subject property is located:

- Trenton municipal surface water system Intake Protection Zone
- Frankford municipal surface water system Intake Protection Zone
- Bayside municipal surface water system Intake Protection Zone
- Stirling municipal well system Wellhead Protection Area

Check all activities that may be associated with the proposal.

- Fuel Handling and Storage (eg. home heating oil, fuel retail outlets, farm fuel)
- Chemical Handling and Storage (eg. paints, degreasers, solvents, cleaning agents)
- Agricultural Activities (eg. fertilizer use, pesticide use, storage or application of manure, grazing or pasturing of animals)
- Stormwater Management (eg. drainage ditches, swales, retention ponds, drainage tiles, piped systems, water treatment, vehicle washing)
- Sewage Systems new or enlarged (eg. septic systems, holding tanks, communal sewage systems)
- Application, Handling and Storage of Road Salt
- Snow Storage
- Waste Disposal (eg. Industrial/commercial waste, waste from septic/holding tanks)
- Creation of a Transport Pathway (eg. building foundation, basement, a well, a culvert, underground water or sewer systems, geothermal system, tile drains)

Note: Section 27(3), Ontario Regulation 287/07 requires the municipality to notify the Source Protection Authority and Source Protection Committee when a new transport pathway may be created.

Describe any proposed activities that would be considered a drinking water threat as defined by the Clean Water Act, 2006.
